

Touchless washbasin
faucet for cold
or premixed water

*New with Bluetooth®
technology for
individual settings
of the faucet*

The new HANSA**ELECTRA** variants

CONTEMPORARY AND USER-FRIENDLY – HANSAELECTRA

The touchless washbasin faucet is especially for use in public facilities. As they respond to movement, and so do not have to be “operated”, they are user-friendly, safe and hygienic. And as the water is only ever supplied in the actual required quantity and temperature, no resources are wasted. You save water and energy every time you use it.

- Hygienic and easy to keep clean
 - all the components inside the spout, no extra seams
- Ideally suited for new installations or the replacement of existing manually operated fittings
- Touchless function – reliable PSD-Sensor

- Laminar flow with minimal risk of the spread of microbes
- Battery-operated (2x AA lithium batteries 1,5 V) – no need for power cable
- Lifetime approximately 3 years
- Connection to a cold or pre-mixed water
- Integrated shut-off valve

- Spout material is resistant to dezincification and corrosion
- Automatic flush possibility and further parameter can be changed with the HANSA Connect App, via smartphone or tablet
- Waterways without nickel coating
